

ASSESSMENT METHOD	ASSESSMENT CRITERIA ICM0031 DATA ANALYSIS
Individual tasks about different stages and aspects of data analysis (grades learning outcomes 1 – 2).	The students have to present the solutions/results of 3 individual task (programs, graphs, etc).
The term paper (grades learning outcomes 2 – 4).	The student has to present the term paper. In the paper, the full analysis of concrete data set has to be carried out. The data set is selected by student's choice. The term paper has to be written in correct format, style and language and presented in seminar.
PASS/FAIL ASSESSMENT	To pass assessment: 1) all 3 tasks have to be executed correctly; 2) the term paper has to be completed and presented in seminar.
