

Criteria for grades:

- active participation in the group work;
- goal oriented action;
- advancement and application of previously acquired knowledge and experience;
- not disrupting the independent work of other students;
- acquiring responsibility for the tasks taken upon oneself.

Those criteria are assessed by the supervisors based on the following evidence:

- student portfolio (action plans, reports, presentations, photos, figures, links, notes, hardware, software);
- feedback that the student has given others;
- feedback given to him/her by others;
- participation and involvement that has been noticed by supervisors or with written proof.

For grade 1 You should:

- actively participate in the course seminars and project meetings;
- actively participate in the course activities, read and answered emails from course leaders and delivered the course assignments;
- spend time on task corresponding to the number of course ECTS credits;
- show that you approach the intended learning outcomes to a significant extent.

For grade 2 You should also:

- work with several types of tasks in the project;
- to some extent take on responsibilities in the course;
- clearly show that you approach most of the intended learning outcomes.

For grade 3 You should also:

- work in most of the fields analysis, practical implementation, administration and communication;
- clearly show personal initiative and engagement in the course.

For grade 4 You should also:

- work actively with analysis, practical implementation, administration and communication;
- clearly show that you reached the learning outcomes.

For grade 5 You should also:

- distinguish yourself in several of the above task areas and learning outcomes;
- show special personal engagement, responsibility and initiative for the project and group work.
