

Grading and home assignments

ASSESSMENT METHOD

Homework quiz (in total 6 quizzes)

Homework assignments

PREREQUISITES FOR ASSESSMENT

DETERMINING THE FINAL GRADE

ASSESSMENT CRITERIA

Graded assessment

After five lectures, quizzes will be provided in the electronic environment (multiple choice questions or simple calculations). The maximum score for one quiz is 5 points (7 points for the quiz on time value of money) and the result will depend on the percentage of correctly solved multiple choice questions.

Graded assessment

During the course, homework assignments (individual or group) on financial planning, financial decisions, making investments and investment planning will be provided in the electronic environment. The maximum score for one assignment is 5-50 points depending on the assignment, the maximum score for completing all the assignments is 100 points.

Students need to achieve at least 51 points to pass the course.

Homework quizzes up to 32 points, homework assignments up to 100 points. The maximum total number of points is above 100 but grading is based on the absolute amount of points and not on percentages.

Final result = homework quizzes + homework assignments

The maximum amount of points received is above 100, the points will be converted to grades as follows: : 0-50 points „0“; 51-60 points „1“; 61-70 points „2“; 71-80 points „3“; 81-90 points „4“; 91-... points „5“.
