

ETT0360 Traffic Engineering and Road Safety

EVALUATION METHOD	EVALUATION CRITERIA						
Course papers – 40 % of the grade	Study outcomes	<i>Course papers grade</i>					
		0	1	2 <i>Basic criteria</i>	3 <i>In addition to basic criteria's</i>	4 <i>In addition to prior criteria's</i>	5 <i>In addition to prior criteria's</i>
	<ul style="list-style-type: none"> Knows basics of road safety audits. Knows basics of traffic safety and analysis of traffic accidents. 	Essential inaccuracies or mistakes compared to base criteria level	Nonessential inaccuracies or mistakes compared to base criteria level	<ul style="list-style-type: none"> Can complete road safety audit report Can analyze traffic safety measures 	<ul style="list-style-type: none"> Can establish relationships between various subareas under the basic criteria 	<ul style="list-style-type: none"> Defines terms accurately. 	<ul style="list-style-type: none"> Line of reasoning is clear in a manner fit for an engineer and backed with arguments.
Written exam on the topics of the description of the subject – 60 % of the grade		<i>Exam's grade</i>					
	Study outcomes	0	1	2 <i>Basic criteria</i>	3 <i>In addition to basic criteria's</i>	4 <i>In addition to prior criteria's</i>	5 <i>In addition to prior criteria's</i>
	<ul style="list-style-type: none"> Has a systematic overview of traffic management principles and traffic safety measures and is able to associate them with functionality of transport system. Knows basics of work zone safety. 	Essential inaccuracies or mistakes compared to base criteria level	Nonessential inaccuracies or mistakes compared to base criteria level	Can analyze main problems of traffic safety. Knows basics of traffic engineering and regulative documents. Knows best practices of traffic management.	Can establish relationships between various subareas under the basic criteria	Defines terms accurately.	Line of reasoning is clear in a manner fit for an engineer and backed with arguments.
PRESUMPTIONS TO BE	Course paper presented at required deadline.						

ACCEPTED FOR GRADING	
FORMATION OF FINAL GRADE	Total grade of the exam in scale 0-5. Results of course papers determines 40% of final grade and exam accordingly 60% of the final grade.
